

Front  
1.2mm or 1.5mm mild steel

Rear  
1.2 or 1.5mm mild steel

Front variants

### Buffer Beams

6mm angle supports the footplate

Secure angles to buffer beams with 1.2mm or 3/64" rivets.

All other rivets are dummy and may be omitted

Countersink at rear where rivets would otherwise foul spacer blocks.

Note: three 1.8mm holes shown in face are to secure buffer beams and coupling  
The builder may want to choose alternatives.
